NOTE: The increase in Tuition at Mesa State in FY06 represents the addition of “Fees” into the tuition rate, and is thus artificially high.
 Source: CDHE, for details see Appendix 1, or <http://higherred.colorado.gov/Publications/General/StrategicPlanning/CommRetreatOverview.html>

- Demographic changes in the State’s population will force change in Higher Education.
- According to the State Demographers Office, underrepresented groups are all projected to grow at faster rates than the majority group, Whites.
- By 2035, Minority groups will account for 32% of the statewide population, up from a quarter of the population in 2005.

Source: CDHE, for details see Appendix 1, or <http://highered.colorado.gov/Publications/General/StrategicPlanning/CommRetreatOverview.html>

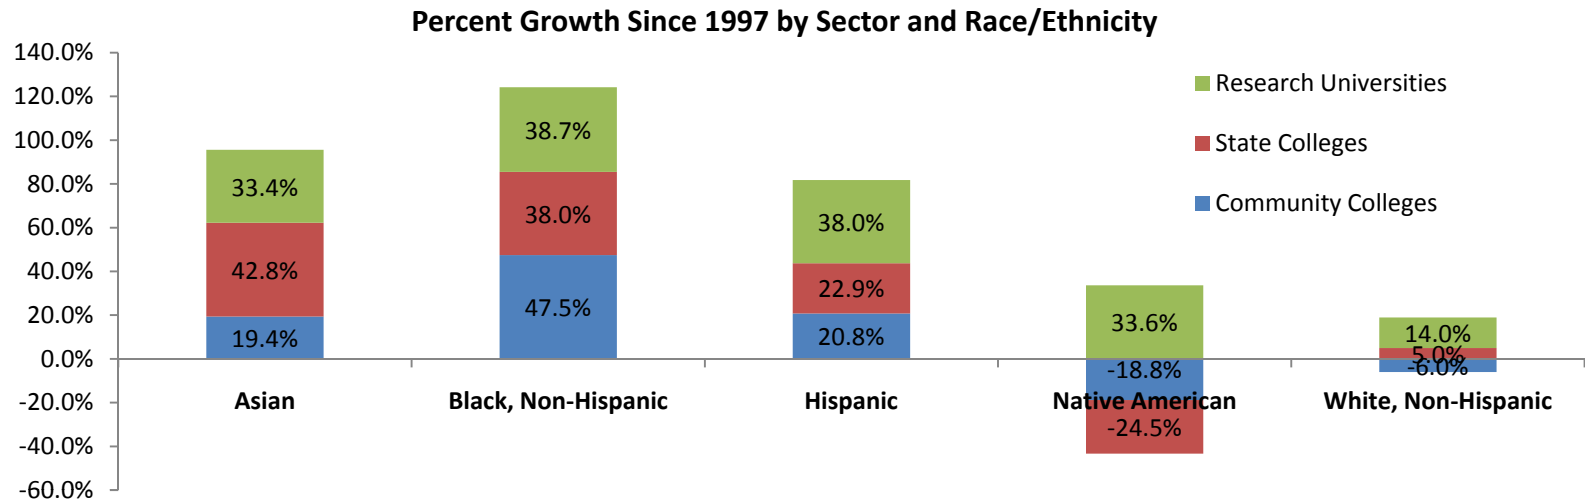

- By 2035, Hispanics are projected to account for nearly a quarter of the Colorado population.

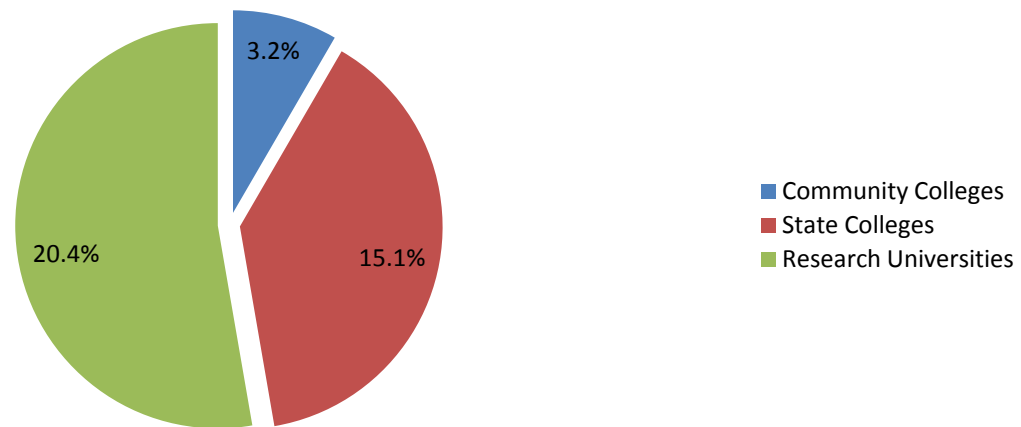

Source: CDHE, for details see Appendix 1, or <http://higher.ed.colorado.gov/Publications/General/StrategicPlanning/CommRetreatOverview.html>

- And Hispanics, in particular, are proportionally underrepresented in the State's public institutions of higher education
- Given the population projections, institutions must develop aggressive recruitment and retention strategies to fulfill statewide education needs

Total Percent Enrollment Growth Since 1997 by Sector

- Even though total enrollments show some groups remain underrepresented, it is in spite of the fact that the same groups grew rapidly over the last decade.
- The majority of the prior decade's enrollment growth has occurred at the Research Institutions (UC System, CSU, Mines, and UNC)
